NEPAL - 23 Most Vulnerable Districts, Identified by the UN’s Country Analysis (2011)

**Legend**

- **Administrative Boundary**
  - International
  - Development Region
  - District

- **Composite Index Score**
  - 0.20 - 0.40 (10 Districts)
  - 0.41 - 0.50 (13 Districts)

**Composite Index Score 0 (Lowest) to 1 (Highest)** derived from 8 Indicators:
1. Average of 1 to 4 quarters food security phases
2. Net Enrolment Rate (NER) Basic Education
3. Working Children 10-14 years
4. Sanitation Coverage
5. Per Capita Development Budget Expenditure
6. DPT 3 immunization under 1 years of age
7. Expected frequencies of outbreaks
8. Ratio of girls to boys in secondary education

**Note:** This Composite Index is calculated by combining the values of several indicators into one value using equal weighted scale.
