

## Operational HCT Group Meeting

29<sup>th</sup> January 2019, UN Conference Room

---

Stine Heiselberg, Head of UNRCO opened the meeting by introducing Louisa Medhurst, Humanitarian and Resilience Adviser for UN Resident Coordinator's Office.

1. Jurgen Hulst and Yashaswi Shrestha, WFP presented the Pacific Logistic Mapping (PALM) which maps data on humanitarian stockpiles with a view to improving humanitarian coordination.

**Discussion:** WFP plans to present to MoHA officials and the Nepal Logistics Cluster. WFP will link in with IFRC and NRCS to ensure synergies with their own stockpile/information management systems. The Key Immediate Needs (KIN) data from the Common Feedback Project (CFP) will also be integrated. This can then be cross checked against stockpiles to assess the appropriateness of the items. WFP is also connecting the process to the global level within the Humanitarian Stockpiles Working Group.

**Action Point:** WFP will lead the roll-out of the mechanism through engagement with the Clusters as part of the Emergency Response Planning process (to begin with earthquake planning).

2. Krishna Raj Kaphle from UNDP presented UNDP's work on the revision of the National Disaster Response Framework. Main aspects of the NDRF amendment/ revision are; new Constitutional and legal provisions, Disaster Risk Reduction Policy and Strategic Action Plan, new governance structure and division of power and jurisdictions, lesson learned from 2015 Gorkha Earthquake, Responsibilities, and Jurisdiction of National Disaster Management Authority, and Nepal's international obligation and International Law and normative framework.

**Action Point:** UNDP will share an English translation of the draft NDRF and invite further comment.
